

Smelting with SAP Business One®

Before: Challenges and Opportunities

- Existing system was failing to keep pace with business growth and was increasingly costly to maintain
- Required reliable data source to determine market demand

Why SAP Partner and Solution

- SAP Business One gives Sharif Metals the opportunity to map all business processes in one system
- Ease and simplicity of company growth without limitation
- Cloud deployment makes it easier for on-the-go employees to stay connected
- Advanced Business Solutions came highly recommended by many customer references. They provided an outstanding implementation experience and follow-up support.

After: Value-Driven Results

- Accelerated workflows
- Simplified business processes
- Reduced human error and data duplication
- Improved employee productivity and efficiency.

“SAP Business One is a tool that can help us grow smoother and faster without limitation. We know for a fact it will keep pace.”
